Fostering Information:					
Does your business have any special requirements that we should be aware of? <i>Health issues, scheduling conflicts, limitations, allergies, etc.</i> Please describe:					

We have cat condo cages available (wire cages with shelves, easily moved on wheels). Will you need one for your business?	<input type="checkbox"/> Yes <input type="checkbox"/> No
Where will the cat condo be kept?	
Will your foster cat have time outside the cage? (Not required)	<input type="checkbox"/> Yes <input type="checkbox"/> No
Where will your foster cat have access to when outside the cage?	
Sometime cats can develop minor, treatable medical conditions like colds (upper respiratory infections), ear infections, or eye infections. Would your business be comfortable caring for and medicating your foster cat for these conditions? BAHS will provide all veterinary care and medications.	
<input type="checkbox"/> Yes, we are comfortable with and able to medicate our foster cat, if needed. <input type="checkbox"/> No, we are not comfortable with medicating our foster cat. (BAHS will treat cat at the shelter. After treatment is done, the cat can return to your business or place cat back up for adoption at the shelter. An alternative cat can be provided during the treatment, if requested.)	
Different animals need to be in foster care for different lengths of time. What do you feel would be the longest you would be able to keep a foster pet in your business?	

I have the authority to represent the business described above and agree to all terms of the Bay Area Humane Society's Foster Care Program on behalf of the business. I understand that foster pets could be adopted out, transferred, or euthanized at the discretion of the Bay Area Humane Society. I also understand there could be health risks to myself, fellow employees, vendors, customers, visitors, our families, and our own pets, and we accept these risks. I hereby release BAHS and its employees, staff, agents and/or representatives from any claims or demands that I or the business have, or may have, that: (a) may be connected with the foster pet, (b) may arise out of BAHS' care of this foster pet, and/or (c) may arise out of our care of the foster pet.
